P2 design

1. Create Human class and constructor set_human(),get_human()
2. Create Computer class and constructor set_computer_choice()
3. Create Referee class and the compare function.
4. Use main function to access that code.

Test result:

1 input 3 R P R
Result : T W T;
2 input 3 R p R
Result : T T;
3 input 4 R R R R
Result : T T T T
